

Hello, I'm Hung Tsz Hang

In this Sichuan exchange tour, I had an unforgettable and remarkable experience. The students in Sichuan were so friendly. They took us to many places like Mount Qingcheng and the Dujiangyan(都江堰) Irrigation System, Panda Park and Siuchuan Earthquake Ruins. It's a fruitful journey.

Mostly, we learn the word 'Earthquake' which is from textbook or online material. It's impossible to experience earthquake in Hong Kong. So it's a very impressive experience for me. I can see the collapse of buildings. The original look of the buildings were school, store, police station and residence. They told me that it's some corpses still under the buildings. The consequences of disaster affected a lot. It destroyed so many family and home. It's unmeasurable. Suddenly, I had remembered something from my teacher. He said 'Nobody knows what will happen in next moment. So enjoy every moment when you are alive'. His words are exactly what my feeling at that moment.

Also, we had two days in primary school for volunteer teaching. We prepared some materials for teaching. The topics were Hong Kong Culture and Simple English. Kids were so enthusiastic and active even though I had not prepared any gift for them. We sang some songs with simple movements. It was one of the effective way to learn English. I was so glad that we had a great interaction with them. They were so active to respond us. Answering the questions, singing with us, dancing with us. I hoped they understood more about Hong Kong and gained something.

Finally, I have to say thank you for our leader Jade Lam and our classmates. They had payed a lot (energy and time) for this exchange tour. It will be my one of unforgettable experience. Thank you very much!!!!
